## PROFILE

Recent bootcamp graduate with a bachelor's degree in Management Information Systems seeking to join a company where I can develop my career as a Software Engineer. During my studies, I gained experience in frontend development, mainly using React and CSS, but I am always in looking to learn new technologies that can enhance my skill set and contribute to my professional growth.

## TECHNICAL SKILLS

- **Languages & Frameworks:** React, Node.js, JSX, CSS, Express, MongoDB, HTML.
- **Tools & Platforms:** GitHub, Bootstrap, Axios, Balsamic

## EDUCATION

- **Coding Dojo, Remote** — Full Stack Developer Cert (Fall 2024)  
The first portion of the bootcamp focused on web fundamentals, including HTML and CSS and applying basic concepts using JavaScript.  
The second portion of the bootcamp focused on providing core knowledge such as API integration and handling through Axios, routing, hooks, to create a full stack application using React, Express and MongoDB (MERN).
- **Florida Atlantic University, Boca Raton, FL** — BS in Management Information Systems (Spring 2024)  
*Relevant Coursework:*  
Artificial Intelligence and Digital Transformation for Business | Database Management Systems | Data Mining and Predictive Analytics | Introduction to Computer Systems and Software Development

## PROJECTS

### Patient Management Application (Coding Dojo Project)

- Developed a full-stack patient management application using **React**, **Node.js**, **Express**, **MongoDB**, and **Axios**.
- Designed dynamic and responsive UI components using **React** and **BootStrap**, ensuring an intuitive user experience.
- Collaborated using **GitHub** for version control and successfully deployed the application

### Paintball Field Reservation Management (Coding Dojo Project)

- Collaborated on a project where my primary focus was developing the frontend, which was connected to a backend designed by another team member using a different programming language.
- Designed dynamic and responsive UI components using **React**, **Axios** and **BootStrap**, ensuring an intuitive user experience.
- Utilized **GitHub** for version control and successfully deployed the application.

## CERTIFICATIONS

Machine Learning Specialist: IBM Associate | Microsoft Specialist: Excel Associate | Watson Assistant Foundations

## WORK EXPERIENCE

### Operation Support Analyst, (FDOT); POMPAÑO, FL — 2023-PRESENT

- Fulfill requests from the Legal Department regarding account histories from the Florida Department of Transportation
- Review financial data for accuracy, maintaining meticulous attention to detail to prevent errors and fraud
